

Work / Assignment of Trajectory generation for Exoskeletons

Group members: Lorenzo Cano (736078) and Carlos Tierno (705548)

Title for the trajectory: Volleyball Spike

Selection of arm/legs: Trajectory involves full body: Movement of legs, arms and torso.

Video of motion: https://youtu.be/3KYhq_-Pq78?t=120 2:00 min

Description: As the volleyball spike can be decomposed by three different parts (run, jump and hit), we will focus on the last two.
